PROFESSIONAL SUMMARY

Full-Stack Developer with **2.5+ years** experience building scalable web applications using **React**, **Next.js, Node.js, and TypeScript**. Experienced in REST API development, **microservices** architecture, real-time systems, and multi-tenant SaaS platforms. Strong background in **PostgreSQL**, **MongoDB**, authentication systems **(JWT/RBAC),** and performance optimization.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vite.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Chakra UI, Shadcn UI, Styled Components, Framer Motion.

State Management & Forms: Redux, Zustand, React Query, Context API, React Hook Form, Yup, Zod, SWR.

Frontend Engineering: Responsive Design, SEO, Cross-Browser Compatibility, React Router.

Backend: Node.js, Express.js, REST API Development, JWT Authentication, RBAC, Microservices Architecture, MVC Architecture, API Security, Design Patterns, Redis Caching.

Databases & ORM: PostgreSQL, MySQL, MongoDB, MariaDB, SQLite, Prisma ORM, Knex.js ORM, Schema Design, Query Optimization, Indexing, Aggregation Pipelines

Real-Time & Integrations: WebSockets, SignalR, OAuth 2.0, Email Automation, File Upload Handling.

DevOps & Deployment: AWS (EC2, S3 – basic exposure), Docker, GitHub Actions (CI/CD), Vercel, Netlify, PM2, Linux Server Management, Environment Configuration.

Testing: Jest (Unit Testing), Integration Testing, API Testing.

PROFESSIONAL EXPERIENCE

1. Software Engineer – Pranati Technologies, Chennai | OCT 2023 – March -2026

KEY PROJECTS

1. Magma CMS – Multi-Tenant Headless CMS - Link

Tech: *Next.js, Node.js, PostgreSQL, MySQL, SQLite, Knex.js, JWT, RBAC, Nodemailer*

A **multi-tenant CMS platform** supporting **database-per-project isolation**, secure authentication, modular integrations, and dynamic content management. The platform enables **customizable roles, media management, and real-time content editing**, all designed for scalability and extensibility.

Roles & Responsibilities:

- Architected **multi-tenant database design** using **Knex.js ORM**, enabling multiple isolated databases per tenant.

- Developed **JWT-based authentication and dynamic RBAC**, supporting **custom roles and permissions** configurable per project.
- Built **custom HTML editor and RTM (Rich Text & Markdown) editor**, enabling content creation and formatting directly within the platform.
- Implemented **media upload and sharing modules**, allowing tenants to manage images, videos, and documents securely.
- Designed **event-driven email workflows** using Nodemailer for notifications, alerts, onboarding, and transactional communications.
- Ensured **end-to-end data validation, error handling, and API security** across all modules.

2. Member Management System – Microservices & Real-Time Chat

Tech: *Vite.js, TypeScript, .NET Core, Tailwind CSS, SignalR*

Overview: Microservices-based platform handling memberships, payments, renewals, and real-time communication.

Roles & Responsibilities:

- Developed subscription, payment, and renewal modules with microservices architecture for scalability.
- Implemented real-time chat using SignalR supporting 1,000+ concurrent users.
- Built admin dashboard for monitoring members, plans, payments, and real-time activity.
- Ensured secure authentication and authorization using JWT and RBAC.
- Conducted unit testing, API testing, and end-to-end validation for reliability.
- Coordinated with backend and frontend teams to ensure seamless integration and feature delivery.

3. Full-Stack IPTV Web Platform

Tech: *React.js, TypeScript, .NET, MySQL, SignalR*

Overview: Real-time IPTV platform supporting live TV streaming, dynamic content delivery, and user management.

Roles & Responsibilities:

- Developed **real-time video streaming modules** with client-server synchronization.
- Implemented **JWT-secured authentication**.
- Built **microservices-based APIs** for content management, user accounts, and subscriptions.
- Implemented **SignalR-based real-time notifications** and updates for users.
- Optimized **database queries** for fast retrieval of live and VOD content.
- Collaborated with UI/UX designers to ensure **responsive, accessible interfaces**.

EDUCATION

Master of Computer Application (MCA) (2021 - 2023) **- CGPA 8.56**

Erode Sengunthar Engineering College, Anna University
